

Good morning

Welcome to the latest edition of 'IPAA Connect', a weekly collection of curated content and resources from across the IPAA network.

This week we feature our third [Work with Purpose](#) podcast with Elizabeth Kelly PSM, a Deputy Secretary at the Department of Industry, Science, Energy and Resources. I really recommend listening to Elizabeth's reflections on her role managing four taskforces that are overseeing the national medical stockpile.

We're also looking forward to next week's edition with Kathryn Campbell AO CSC, the Secretary of the Department of Social Services.

I trust you're keeping well and adapting to our new normal. For our part, the IPAA team is settling into a new operating rhythm, with some great ideas for the months ahead!

EP#3: THE NEW NORMAL WITH ELIZABETH KELLY PSM

In this week's 'Work with Purpose' episode, we're joined by Elizabeth Kelly PSM, Deputy Secretary, Department of Industry, Science, Energy and Resources. Elizabeth shares some fascinating case studies on cross-agency collaboration in response to COVID-19 and what the post-pandemic 'new normal' might look like. Listen to the full episode or read the transcript on our [website](#).

SPIRIT OF SERVICE

Here's the second video in our [Spirit of Service](#) series, showcasing personal experiences from a diverse range of passionate and hardworking APS staff involved in the COVID-19 response.

This week we hear from **Diana Shi**, Director of the Financial Operations Section, Finance Division at DFAT. Diana's been involved in a number of DFAT's crisis response efforts – most notably MH17 in The Hague; White Island as Crisis Response Team (CRT) member deployed to New Zealand, and more recently as DFAT CRT lead in the two Australian COVID evacuations from Wuhan.

AT HOME WITH IPAA

This week we visit Emily Stirling's remote work desk for the Biosecurity Analytics Centre at the Department of Agriculture, Water and the Environment. Emily's also a leading member of the Graduate Data Network, and we've had the absolute pleasure of working with her and other GDN members to deliver their 2020 Graduate Data Forum.

Emily's set up her home office so she's happily looking towards her balcony of plants, which she says generally brightens her day!
